Instructions for Downloading AutoCAD Inventor

Brandi Bolinger
bbolinger@gmail.com
248.249.1983

Mentors to ask if you have questions: Clinton Bolinger or Mike Hasselbach

IMPORTANT NOTE: This will download includes a 3-year Student edition of AutoCAD inventor. For future projects for the Team, please create and save all files on the Team Server in the back room. This download will take a LONG TIME, even with a stable internet connection. We recommend that you allow the download to progress overnight.

If you plan to complete a deliverable at home that requires Team Materials, you MAY NOT remove ANY ITEMS that belong to the Team from Premier Tooling Systems unless you have permission from Clinton Bolinger, and have signed the Transfer of Goods contract. Failure to comply may result in your dismissal from the Team.

You Will Need the Following Items:

1. A personal laptop that you can use at home (with power cord)
2. A stable internet connection

Instructions to Download:

1. <http://www.autodesk.com/education/free-software/all>
2. Click on "Inventor Professional"
 - 1.) Create an account
 - 2.) Choose your version: Inventor Professional 2015
3. Select Language: English
4. Select Operating system: Windows 32-bit or Windows 64-bit (This depends on the operating system on your computer),
5. Select "INSTALL NOW"
6. Select "I accept"
7. Select "Install"
8. Select "run" [or double click the .exe file if run is not an option]
9. Select "yes"
10. Select "Install" (install on this computer)
11. Select "install"

After Inventor installs on your computer:

1. Open the program
2. If you are completing the "Assemble Claw" deliverable, you will need to download and open the "Claw" zip file in order to start the challenge.
